Bachelor's degree, Cybersecurity

University of Jeddah

06/2019 - 01/2024

Jeddah, Makkah, Saudi Arabia

Cybersecurity Analyst (Internship)

Ministry of Hajj and Umrah

06/2023 - 08/2023

Makkah, Saudi Arabia · On-site

Tasks

- Active involvement in SOC/NOC
- User access control management
- Incident and inquiry management
- Security incident investigation

PERSONAL PROJECTS

Automated Web Reconnaissance Platform

University Senior Project

Built an 'Automated Web Reconnaissance Platform' enabling customizable scans using diverse techniques. Generated organized PDF reports of findings and mitigation strategies upon request. Ensured responsible usage, holding organizations accountable for misuse-related damages.

Achievements/Tasks

- Directed project execution, adhering to timelines and milestones, delivering a fully functional and comprehensive web reconnaissance platform.
- Developed a streamlined user interface enabling effortless selection and execution of 10 distinct web reconnaissance techniques.
- Authored detailed documentation delineating platform functionalities and guidelines for user reference and future enhancements.

SKILLS

Web Development

Quick learner

Emotional Intelligence

Linux-proficient

Problem-solving

Leadership/Team management
